

Computer Science 6th Class Chapter 2 English Medium Online Test

Sr	Questions	Answers Choice
1	Which of the following is not an input device.	A. Keyboard B. Speaker C. Mouse D. <div>Scanner</div>
2	In light pen the sensing element is called.	A. Light cell B. Cell C. Photocell D. None
3	Input device which is used to transfer hardcopy into a computer is called.	A. Mouse B. Joystic C. Scanner D. Keyboard
4	The device that is used to input sound in the coputer is known as.	A. Joystic B. Speaker C. Microphone D. Light pen
5	OCR stand for	A. Optical corret ReadingB. Optical Character ReaderC. Optimal Copy ReadingD. Optical Character Reading
6	Which of following is type fo sensor.	A. Sound sensor B. Pressure sensor C. Light sensor D. All
7	Devices that are used to display the result of processing are called.	A. Output devices B. Input devices C. Storage Devices D. Processing devices
8	Which of the following are type of monitor.	A. LCD B. TFT C. SMD D. All
9	Which of the following is not part of CPU	A. CU B. AU C. MU D. CPU
10	All mathematicla opeations in computer are performed by.	A. Memory unit B. Control Unit C. Arithmetic unit D. Storage unit
11	What two main elements make up a computer system.	A. Input and output devicesB. Hardware and softwareC. Arithmetic and logical unitD. Control and memory unit
12	What type of data can be entered into a computer using a microphone.	A. Text data B. Video data C. Audio data D. Image data
13	What is a mouse in a computer system.	A. A joystic device B. A light pen device C. A microphne device D. A cursor -control device
14	What is a joystick in a computer system.	A. A cursor contol device B. A stick used to move the cursor position C. A pen used to select a menu item D. A device used to imput sound into the computer
15	What does a light pe consist of	A. A laser beam at its base B. A sphericla ball at its lower end

D. A microphone A. Output device B. Input device C. Memor device D. Control device D. Light D. Sound D. Light D. Light D. Sound D. Light D. Sound D. Light D. Sound D. Control D. Sound D. Soun			
16 What type of device is a microphone in a computer system. 17 What type of data does a pressure sensor record. 18 What type of data does a pressure sensor record. 18 What type of data can a magnetic field sensor record. 19 What are teh two most common types of printers. 20 What type of display is used in modern monitors. 21 What is the main purpose of a computer. 22 What is the main purpose of a computer. 23 What is the final result of data processing referred to as. 24 What is the final result of data processing referred to as. 25 What is the most commonly used capacity measurement unit for Hard Disk Drives. 26 What is a hard disk drive. 27 What is the function of a Hard Disk Drive. 28 What is the function of Sold State Drive. 29 What is the function of Sold State Drive. 20 What is the function of Sold State Drive. 20 What is the function of Sold State Drive. 21 What is the function of Sold State Drive. 22 What is the function of Sold State Drive. 23 What is the function of Sold State Drive. 24 What is the function of Sold State Drive. 25 What is the function of Sold State Drive. 26 What is the function of Sold State Drive. 27 What is the function of Sold State Drive.		······· • ·• ·• ····	C. A photocell and an opticla system D. A microphone
17 What type of data does a pressure sensor record. 18 Motion C. Pressure D. Light 18 What type of data can a magnetic field sensor record. 20 What are teh two most common types of printers. 20 What type of display is used in modern monitors. 21 What is the main purpose of a computer. 22 What is the main purpose of a computer. 23 What is the final result of data processing referred to as. 24 What is the final result of data processing referred to as. 25 What is the most commonly used capacity measurement unit for Hard Disk Drives. 26 What is the most commonly used capacity measurement unit for Hard Disk Drives. 27 What is the function of a Hard Disk Drive. 28 What is the function of a Hard Disk Drive. 29 What is the function of Sold State Drive. 20 What is the function of Sold State Drive. 20 What is the function of Sold State Drive. 21 What is the function of Sold State Drive. 22 What is the function of Sold State Drive.	16	What type of device is a microphone in a computer system.	B. Input device C. Memor device
18 What type of data can a magnetic field sensor record. C. Humidity D. Sound 19 What are teh two most common types of printers. 20 What type of display is used in modern monitors. 21 What is the main purpose of a computer. 22 What is the main purpose of a computer. 23 What is the final result of data processing referred to as. 24 What type of memory is used to temporarily store data for processing by the CPU. 25 What is the most commonly used capacity measurement unit for Hard Disk Drives. 26 What is the function of a Hard Disk Drive. 27 What is the function of Sold State Drive. 28 What is the function of Sold State Drive. 29 What is the function of Sold State Drive.	17	What type of data does a pressure sensor record.	B. Motion C. Pressure
19 What are teh two most common types of printers. B. Laser and CRT C. Inkjet and Laser D. CRT and Plotter 20 What type of display is used in modern monitors. 21 What is the main purpose of a computer. 22 What is the final result of data processing referred to as. 23 What type of memory is used to temporarily store data for processing by the CPU. 24 What is the most commonly used capacity measurement unit for Hard Disk Drives. 25 What is the most commonly used capacity measurement unit for Hard Disk Drives. 26 What is the function of a Hard Disk Drive. 27 What is the function of Sold State Drive. 28 A To store data permat C. To store data for parts. 29 A To store data permat C. To store data for parts. 20 A To store data permat C. To store data for parts. 21 A To store data permat C. To store data for parts. 22 A To store data tempor D. To store data for parts. 23 A To store data for a lift. 24 A To store data for a lift. 25 A To store data tempor D. To store data for a lift. 26 D. To store data for a lift. 27 D. To store data for a lift. 28 D. To store data for a lift. 29 D. To store data for a lift. 29 D. To store data for a lift. 20 D. To store data for a lift. 20 D. To store data for a lift. 20 D. To store data only who computer is turned off.	18	What type of data can a magnetic field sensor record.	B. Motion C. Humidity
20 What type of display is used in modern monitors. 21 What is the main purpose of a computer. 22 What is the final result of data processing referred to as. 23 What type of memory is used to temporarily store data for processing by the CPU. 24 What is the most commonly used capacity measurement unit for Hard Disk Drives. 25 What is the most commonly used capacity measurement unit for Hard Disk Drives. 26 What is a hard disk drive. 27 What is the function of a Hard Disk Drive. 28 Row Captions Drive. 29 What is the function of Sold State Drive. 29 What is the function of Sold State Drive.	19	What are teh two most common types of printers.	B. Laser and CRT C. Inkjet and Laser
21 What is the main purpose of a computer. 22 What is the final result of data processing referred to as. 23 What type of memory is used to temporarily store data for processing by the CPU. 24 What is the most commonly used capacity measurement unit for Hard Disk Drives. 25 What is a hard disk drive. 26 What is the function of a Hard Disk Drive. 27 What is the function of Sold State Drive. 28 D save data C. To provide input D. To display output D. Storage A RAM B. ROM C. Hard disk D. Flash Drive B. Gigabytes C. Terabytes D. Zettabytes D. Zettabytes D. Zettabytes D. A A volatile secondary device B. An optical storage de C. Aprimary storage dec D. A non-volatile second device D. To store data permer D. To store data permer D. To store data permer D. To store data tempor D. To store data tempor D. To store data tempor D. To store data permer D. To store data tempor D. To store data permer	20	What type of display is used in modern monitors.	B. SMD LED C. TFT or LCD
What is the final result of data processing referred to as. B. Processing C. Output D. Storage A. RAM B. ROM C. Hard disk D. Flash Drive What is the most commonly used capacity measurement unit for Hard Disk Drives. C. Terabytes D. Zettabytes D. Zettabytes D. Zettabytes D. A. A volatile secondary and device B. An optical storage dec. A primary storage device B. An optical storage dec. A primary storage device D. A non-volatile secondevice What is the function of a Hard Disk Drive. A. To store data only who computer is turned off B. To store data tempor D. To store data	21	What is the main purpose of a computer.	B. To save data C. To provide input
What is the most commonly used capacity measurement unit for Hard Disk Drives. A. Magebytes B. Gigabytes C. Terabytes D. Zettabytes D. Zettabytes D. Zettabytes D. Zettabytes D. Zettabytes D. A. A volatile secondary service B. An optical storage de C. Aprimary storage device D. A non-volatile secondevice What is the function of a Hard Disk Drive. A. To store data only who computer is turned off B. To store data permar C. To store data tempor D. To store data for a lir D. To store data for a lir D. To store data only who computer is turned off.	22	What is the final result of data processing referred to as.	B. Processing C. Output
What is the most commonly used capacity measurement unit for Hard Disk Drives. C. Terabytes D. Zettabytes A. A volatile secondary and device B. An optical storage description of C. Aprimary storage description device A. To store data only who computer is turned off B. To store data permanana computer is turned off D. To store data temporation of Sold State Drive. What is the function of Sold State Drive. B. Gigabytes C. Terabytes D. Zettabytes A. A volatile secondary and device A. To store data only who computer is turned off B. To store data permananananananananananananananananananan	23	What type of memory is used to temporarily store data for processing by the CPU.	B. ROM C. Hard disk
What is a hard disk drive. 25 What is a hard disk drive. 26 What is the function of a Hard Disk Drive. 27 What is the function of Sold State Drive. 28 What is the function of Sold State Drive. 29 What is the function of Sold State Drive. 20 What is the function of Sold State Drive. 20 What is the function of Sold State Drive. 20 What is the function of Sold State Drive. 20 What is the function of Sold State Drive. 20 What is the function of Sold State Drive. 20 What is the function of Sold State Drive.	24	What is the most commonly used capacity measurement unit for Hard Disk Drives.	B. Gigabytes C. Terabytes
26 What is the function of a Hard Disk Drive. 27 What is the function of Sold State Drive. 28 Computer is turned off B. To store data permar C. To store data tempor D. To store data for a line. 29 A. To sgtore data permar B. To store data tempor C. To store data for a line. 20 C. To store data for a line. 21 D. To store data only who computer is turned off.	25	What is a hard disk drive.	B. An optical storage device C. Aprimary storage device D. A non-volatile secondary storage
What is the function of Sold State Drive. B. To store data tempor C. To store data for a lin D. To store data only who computer is turned off.	26	What is the function of a Hard Disk Drive.	A. To store data only when the computer is turned off B. To store data permanently C. To store data temporally D. To store data for a limited time
	27	What is the function of Sold State Drive.	A. To sgtore data permanently B. To store data temporarily C. To store data for a limited time D. To store data only when the computer is turned off.
B. To store data Tempo What is the function fo USB Flash Memory. C. To store data permar	28	What is the function fo USB Flash Memory.	A. To stor edata for a limited time B. To store data Temporally C. To store data permanetly D. To store data only when computer
