

Principles of Economics Icom Part 1 English Medium Chapter 4 Online Test

3 In modern term, factors of production are called C. Inputs and production 4 The most important and basic factor of production is A Land 5 Second factor of production is A Land 5 Second factor of production is A Land 6 Third factor of production is called A land 7 Fourth factor of production is called A Land 8 Tractor, harvester, thrasher etc are the examples of factor of production A Land 8 Tractor, harvester, thrasher etc are the examples of factor of production A Land 9 Blessings like air, rain existing on land are included in factor of production A Land a Labour C. Capital D. Organization 10 Organization means an individual or institution which with optimum factor combination A Land a Labour or C. Capital D. Organization 10 Organization means an individual or institution which with optimum factor combination A Lays foundation of 1 accepts the responsib and loss 11 Production of a commodity depends upon four factors of production i.e. land, labour, capital to Next A According to Masic	Ques	stions	Answers Choice
2 Factor of production which is used to earn more income, is called E. Labour C. Capital D. Organization 3 In modern term, factors of production are called A. Populs B. Productive services C. Productive of good 4 The most important and basic factor of production is A. Land B. Labour C. Capital D. Organization 5 Second factor of production is A. Land B. Labour C. Capital D. Organization 6 Third factor of production is called A. Land B. Labour C. Capital D. Organization 7 Fourth factor of production is called A. Land B. Labour C. Capital D. Organization 8 Tractor, harvester, thrasher etc are the examples of factor of production A. Land B. Labour C. Capital D. Organization 9 Blessings like air, rain existing on land are included in factor of production A. Land B. Labour C. Capital D. Organization 10 Organization means an individual or institution which with optimum factor combination and organization A. Land B. Labour C. Capital D. Organization 11 Production of a commodity depends upon four factors of production i.e. land, labour, capital and organization A. According to moder D. Organization 12 One of the following is not called land A. Rain B. Mountain B. Mountain B. Mountain	Numb	ber of factors of production is	B. Two C. Three
3 In modern term, factors of production are called B. Production of Schult 4 The most important and basic factor of production is A. Land 5 Second factor of production is A. Land 6 Third factor of production is called A. Land 7 Fourth factor of production is called A. Land 7 Fourth factor of production is called A. Land 8 Tractor, harvester, thrasher etc are the examples of factor of production A. Land 8 Tractor, harvester, thrasher etc are the examples of factor of production A. Land 9 Blessings like air, rain existing on land are included in factor of production A. Land rains and readiation of a commodity depends upon four factors of production is called 11 Production of a commodity depends upon four factors of production is called and organization A. Caroffa to consisting on land are included in is called and cossisting on tall and records and receives	Facto	tor of production which is used to earn more income, is called	B. Labour C. Capital
4The most important and basic factor of production isB. Labour C. Capital D. Organization5Second factor of production isA. Land Labour C. Capital D. Organization6Third factor of production is calledA. land B. labour C. Capital D. Organization7Fourth factor of production is calledA. Land B. labour C. Capital D. Organization8Tractor, harvester, thrasher etc are the examples of factor of production C. Capital D. OrganizationA. Land B. Labour C. Capital D. Organization9Blessings like air, rain existing on land are included in factor of production C. Capital or montary C. Capital or montary D. OrganizationA. Land or autor a free B. Capital or montary C. Capital or montary C. Capital or montary C. Capital or montary D. Organization10Organization means an individual or institution which with optimum factor combination and loss and lossA. Lays foundation of 1 B. Capital or motary foundation of B. Capital or m	In mo	odern term, factors of production are called	A. InputsB. Productive servicesC. Inputs and productive servicesD. Production of goods and services
5 Second factor of production is B. Labour 6 Third factor of production is called A. land B. Labour 7 Fourth factor of production is called A. Land B. Labour 7 Fourth factor of production is called A. Land B. Labour 8 Tractor, harvester, thrasher etc are the examples of factor of production A. Land B. Labour 9 Blessings like air, rain existing on land are included in factor of production A. Labour or numan re B. Capital or monetary C. Labour or numan re B. Capital or monetary C. Land or natural ress 10 Organization means an individual or institution which with optimum factor combination A. Labour or numan re B. Capital or monetary C. Land or natural ress 11 Production of a commodity depends upon four factors of production i.e. land, labour, capital and loss C. According to Neo Al economista A. According to Alastriation C. According to Alastriation	The r	most important and basic factor of production is	B. Labour C. Capital
6Third factor of production is calledB. labour C. capital D. organization7Fourth factor of production is calledA. Land B. Labour C. Capital D. Organization8Tractor, harvester, thrasher etc are the examples of factor of productionA. Land B. Labour C. Capital D. Organization9Blessings like air, rain existing on land are included in factor of productionA. Land or d. Labour or human re B. Capital or monetary D. Organization10Organization means an individual or institution which with optimum factor combination and organizationA. Labour or human re B. Capital or monetary D. Organisation11Production of a commodity depends upon four factors of production i.e. land, labour, capital and organizationA. According to Austri thought12One of the following is not called landA. Rain B. Mountain.A. Rain B. Mountain C. According to Austri ho. Mutatian cell c. C. Forests	Seco	ond factor of production is	B. Labour C. Capital
7Fourth factor of production is calledB. Labour C. Capital D. Organization8Tractor, harvester, thrasher etc are the examples of factor of productionA. Land B. Labour C. Capital O. Organization9Blessings like air, rain existing on land are included in factor of productionA. Labour or human re B. Capital or monetary C. Land or natural rese D. Organization10Organization means an individual or institution which with optimum factor combination and organizationA. Lays foundation of I does not accept the re profit and loss D. Serves as a mange business and receives11Production of a commodity depends upon four factors of production i.e. land, labour, capital and organizationA. Rain B. Mountain C. Forests12One of the following is not called landA. Rain B. Mountain	Third	d factor of production is called	B. labour C. capital
8 Tractor, harvester, thrasher etc are the examples of factor of production B. Labour C. Capital D. Organization 9 Blessings like air, rain existing on land are included in factor of production A. Labour or human rest. Capital or monetary C. Land or natural rest. D. Organisation 10 Organization means an individual or institution which with optimum factor combination A. Lays foundation of I always earning profit B. Lays foundation of I does not accept the reprofit and loss 11 Production of a commodity depends upon four factors of production i.e. land, labour, capital and organization A. According to classic B. According to Neo classic B. According to Austria thought 12 One of the following is not called land A. Rain B. Mountain C. Forests	Four	rth factor of production is called	B. Labour C. Capital
9 Blessings like air, rain existing on land are included in factor of production B. Capital or monetary C. Land or natural resp. D. Organisation 10 Organization means an individual or institution which with optimum factor combination A. Lays foundation of I always earning profit B. Lays foundation of I accept the responsibility and loss D. Serves as a mange business and receives 11 Production of a commodity depends upon four factors of production i.e. land, labour, capital and organization A. According to classic B. According to classic D. According to Austria thought 12 One of the following is not called land A. Rain B. Mountain C. Forests	Tract	ctor, harvester, thrasher etc are the examples of factor of production	B. Labour C. Capital
10Organization means an individual or institution which with optimum factor combinationalways earning profit B. Lays foundation of I does not accept the reprofit and loss C. Lays foundation of I accepts the responsibility and loss D. Serves as a mange business and receives11Production of a commodity depends upon four factors of production i.e. land, labour, capital and organizationA. According to classic B. According to Neo classic C. According to Meder D. According to Austria thought12One of the following is not called landA. Rain B. Mountain C. Forests	Bless	sings like air, rain existing on land are included in factor of production	A. Labour or human resources B. Capital or monetary resources C. Land or natural resources D. Organisation
11 Production of a commodity depends upon four factors of production i.e. land, labour, capital and organization B. According to Neo classical economists 12 One of the following is not called land A. Rain B. Mountain C. Forests	Orga	anization means an individual or institution which with optimum factor combination	 B. Lays foundation of business but does not accept the responsibility of profit and loss C. Lays foundation of business but accepts the responsibility of profit
12 One of the following is not called land B. Mountain C. Forests			C. According to modern economists D. According to Austrian school of
	One	of the following is not called land	B. Mountain C. Forests
13One of the following is not included in the characteristics of landB. All the pieces of lan equal infertility C. Productive capacity limited	One	of the following is not included in the characteristics of land	C. Productive capacity of land is

14	One of the following is not included in labour	 A. I eaching of a teacher in a school B. Working of a clerk in an office C. To follow a case by a lawyer D. To look after the child by his mother
15	One of the following is not included in the characteristics of labour	 A. Labour and labourer cannot be separated B. Labour can be stored C. Labour has limited mobility D. Supply of labour is inelastic
16	If an entrepreneur does service, in economics it is called	A. Organization B. Discipline C. Labour D. Wage
17	River, sea, forests, rain are called	A. Land B. Labour C. Capital D. Organization
18	Free gift of nature is	A. Land B. Labour C. Capital D. Organization
19	Mental or physical work undertaken for reward by human being is called	A. Land B. Labour C. Capital D. Organization
20	The factor which is needed to produce goods by the combination of land, labour and capital is called	A. Land B. Labour C. Capital D. Organization
21	Which factor can not be stored	A. Land B. Labour C. Capital D. Organization
22	Cannot be separated from labourer	A. Land B. Labour C. Capital D. Organization
23	As factor of production, river and sea are called	A. Land B. Labour C. Capital D. Organization
24	In economics, every mental or physical struggle undertaken for reward, is called	A. Land B. Labour C. Capital D. Organization
25	Immortal factor production is	A. Land B. Labour C. Capital D. Organization
26	The factor of production which is used to produce more wealth or increase income is called	A. Land B. Labour C. Capital D. Organization
27	All the factors of production can be hired except	A. Land B. Labour C. Capital D. Organization
28	Which factor has no pre-determined reward	A. Land B. Labour C. Capital D. Organization
29	Which factor is oldest and basic factor of production	A. Land B. Labour C. Capital D. Organization
30	Quantity of a commodity which is offered for sale in a market is called:	A. Trade B. Supply C. Demand D. Stock
		A. Positive R. Vartical

31	Supply curve slope is:	C. Negative D. Horizontal
32	Stock means the quantity:	A. Sold in marketB. Which is offered for saleC. Which exist in warehouseD. Of total production
33	The relationship between price and quantity supplied is:	A. Inverse B. Positive C. Infinite D. Zero
34	When supply increases due to rise price, it is called:	A. Fall in supplyB. Contraction in supplyC. Expansion in supplyD. Rise in supply
35	When supply decreases due to fall in price, it is called:	A. Fall in supplyB. Contraction in supplyC. Expansion in supplyD. Rise in supply
36	If price increases but supply remains constant, it is called:	A. Fall in supply B. Contraction in supply C. Expansion in supply D. Rise in supply
37	If price decreases but supply remains constant, it is called:	A. Fall in supplyB. Contraction in supplyC. Expansion in supplyD. Rise in supply
38	When price decreases, supply:	A. Contracts B. Expands C. Remains fixed D. Becomes zero
39	When price increases, supply:	A. ContractsB. ExpandsC. Remains fixedD. Becomes zero
40	If quantity supplied changed in response to change in price, is known as:	A. Ed B. Es C. More Elastic D. Less Elastic
41	If the rate of change in price and quantity supplied is equal then:	A. Es = 0 B. Es = 1 C. Es > 1 D. Es < 1
42	If 50% change in supply in response to 50% change in price then:	A. Es = 0 B. Es = 1 C. Es > 1 D. Es < 1
43	If 30% change in supply in response to 50% change in price then:	A. Es = 0 B. Es = 1 C. Es > 1 D. Es < 1
44	Causes of shifting in supply curve is:	A. Change in technique B. Change in cost C. Change in tax D. All of them
45	Perfectly inelastic supply curve is:	A. Vertical B. Rise upward C. Horizontal D. Fall downward
46	In case of horizontal supply curve, Es is:	A. Mero than unity B. Less than unity C. Zero D. Infinite
