

## Biology Fsc Part 1 Online Test

Sr	Questions	Answers Choice
1	The carbohydrate digesting enzyme is called.	A. Isomerase B. Lipase C. Amylase D. Protease
2	Sublingual glands are located below the	A. Jaws B. Ear C. Tongue D. All above
3	Sides of Digestion in the digestive system of man are.	A. 01 B. 02 C. 03 D. 04
4	Which is fluid feeder	A. Sheep B. Man C. Earthworm D. Aphid
5	Taste buds of tongue play important role in food.	A. Digestion B. Selection C. Lubrication D. Mastication
6	One of the following has no upper incisors.	A. Deer B. Dog C. Bear D. Pig
7	The animal which feed on organic debris are	A. Herbivores B. Carnivores C. Omnivores D. Detritivores
8	Canines are missing in.	A. Carnivores B. Herbivores C. Omnivores D. Humans
9	Tentacles is a characteristic of	A. Snail B. Amoeba C. euglena D. Hydra
10	A common mussel has two large gills covered with	A. shell B. Pseudopodia C. flagella D. Cilia
11	Animals that feed on plants are called.	A. Herbivores B. Carnivores C. Omnivores D. Filter feeders
12	The partly digested food in cockroach is temporarily stored in.	A. Crop B. Gizzard C. Rectum D. Stomach
13	The animals which eat both plants and animals are called.	A. Herbivores B. Carnivores C. Omnivores D. Filter feeders
14	In Cockroach the partially digested food is stored.	A. Rectum B. Gizzard C. Crop D. Colon
15	The animal which feed on other animals are.	A. Herbivores B. Omnivores C. Carnivores D. Detritivores

16	The animals which ingest food in liquid form are called.	A. Carnivores B. Filter feeders C. Fluid feeders D. Macrophageous feeders
17	In amoeba digestion is.	A. Intracellular B. Extracellular C. a and b both D. None of these
