

ECAT Computer Science Chapter 7 Fortran 77 Online Test

Sr	Questions	Answers Choice
1	The person who requests study or work on a system is the.	A. client B. analyst C. change agent D. user
2	Turning an entire project over to an outside firm for development is called.	A. auditing B. outsourcing C. preliminary investigation D. prototype
3	Scheduling deadlines and milestones can be shown on a.	A. system survey B. decision table C. prototype D. Gantt chart
4	The phase following detail design is,	A. preliminary investigation B. implementation C. system development D. system conversion
5	Use to ensure that no alternative is overlooked during data analysis.	A. data flow diagram B. organization chart C. Gantt chart D. decision table
6	A systems analyst would observe the flow of data and interrelations of people within an organization during.	A. detail design B. preliminary design C. systems analysis D. a system survey
7	The entire new system is used by a portion of the users.	A. direct conversion B. pilot conversion C. file conversion D. parallel conversion
8	The kind of interview where all questions are planned in advance is called	A. preplanned B. structured C. observation D. unstructured
9	Data gathering and data analysis take place.	A. after the system survey B. after system analysis C. during system design D. during evaluation
10	Programming and testing are elements of.	A. system analysis B. system development C. implementation D. system design
11	Positioning of headings and columns for the report format, considered during system design, might use.	A. a record layout an organization chart B. a decision table C. a printer spacing chart D. a printer spacing analysis
12	In the course of a systems project, systems design	A. follows systems analysis B. follows development C. precedes systems analysis D. is the fourth phase
13	Testing of each individual program or module is called.	A. program testing B. volume testing C. system testing D. unit testing
14	The software tools that allow a computer to be used for specific purposes are called.	A. firmware B. terminals C. hardware D. application programs
15	Computers that are used in consumer goods, such as cars, are called.	A. enhanced B. software C. analog D. digital
