

Chemistry 9th Class English Medium Unit 6 Online Test

Sr	Questions	Answers Choice
1	The colour of hydrated copper (II) sulphate solid is.	A. Black B. Pink C. White D. Blue
2	The colour of anhydrous copper (II)sulphate solid is	A. Pink B. Black C. White D. Blue
3	The new substance formed in a chemcial reaction is.	A. Reverse B. Reactant C. Forward D. Product
4	In the beginning the rate of reverse reaction is.	A. Slow B. very fast C. Moderate D. Negligible
5	A complete reaction is in which	A. Only 10% reactants covert into products B. All the reactants covrt into products C. All the reactants do no covrt into products D. Half reactants covert into products
6	The forward reaction takes place from	A. Right to left B. Left to right C. Both a and b D. None of these
7	In chemical reaction, the substances that combine are called.	A. Masses B. Materials C. Products D. Reactants
8	Such reaction which continue in both directins are called.	A. Dynamic B. Irreversible C. Reversible D. Non- reactive
9	Which type of reactions speed up gradully?	A. Decomposition reaction B. Forward reaction C. Reverse reactions D. Irreversibel reactions
10	The reaction in which the products can recombine to formreactants are called.	A. Reversible Reaction B. Irreversible reactions C. Decomposition reactions D. Addition reactions
11	The reaction in which the products do not recombine to form reatants are called	A. Addition reactions B. Decomposition reactions C. Irreversitble reactions D. reversible reactions
12	A reverse reaction is one that	A. Speeds up gradually B. Proceeds from left to right C. In which reactants react to form products D. Slow down gradually
