30	The low unit of gas is a real temptation to anyone choosing between gas and electrical processes. But gas-fired processes are often less efficient, require more floor space, take longer and produce more variable product quality, the drawbacks negate the savings many businesses believe they make. By contrast, electricity harnesses a unique range of technologies unavailable with gas and many electric processes are well over 90 percent so far less energy is wasted with benefits in terms of products quality and overall cleanliness it can so often be the better and cheaper choice Isn't that tempting? iii. Electricity harnesses a unique range of technologies what does the writer mean? Electricity:	A. Has developed new technologies B. Ensures power for electricity and its efficiency C. Depends on new kinds of technology D. Makes use of several technologies
31	Choose the Word Which has Opposite Meaning Scurrilous:	A. Decent B. Savage C. Descent D. Volatile E. Dashing
32	Choose the Word Which has Opposite Meaning Scurrility:	A. Vituperation B. Politeness C. Bright D. Physical E. Rudeness
33	The low unit of gas is a real temptation to anyone choosing between gas and electrical processes. But gas-fired processes are often less efficient, require more floor space, take longer and produce more variable product quality, the drawbacks negate the savings many businesses believe they make. By contrast, electricity harnesses a unique range of technologies unavailable with gas and many electric processes are well over 90 percent so far less energy is wasted with benefits in terms of products quality and overall cleanliness it can so often be the better and cheaper choice Isn't that tempting? ii. What was the writer mean by variable quality?	A. The quality of the products cannot be assessed B. Products from gas-fired processes are inefficient C. The kind of products vary from time to time D. The quality of the products is not uniform
34	The low unit of gas is a real temptation to anyone choosing between gas and electrical processes. But gas-fired processes are often less efficient, require more floor space, take longer and produce more variable product quality, the drawbacks negate the savings many businesses believe they make. By contrast, electricity harnesses a unique range of technologies unavailable with gas and many electric processes are well over 90 percent so far less energy is wasted with benefits in terms of products quality and overall cleanliness it can so often be the better and cheaper choice Isn't that tempting? i. The passage can be described as:	A. An advertisement for electricity and its efficiency B. An extract from a science journal C. An account of the growth of technology D. An appeal not to use gas
35	Books are by far the most lasting product of human effort. Temples crumble into ruin, Pictures and statues decay, but books survive time dose not destroy the great thoughts which are as fresh today as when they first passed through their authors mind. These thoughts speak to us through the printed page. the only effect of time has been to throw out of currency the bad products. Nothing in literature which is not good can live for long. Good books have always helped man in various spheres of life no wonder that the world keeps its books with great care. iv. The world keeps its books with care because:	A. They bring great ideas to us B. They educate us C. They make us successful D. They help us in various spheres of life
36	Books are by far the most lasting product of human effort. Temples crumble into ruin, Pictures and statues decay, but books survive time dose not destroy the great thoughts which are as fresh today as when they first passed through their authors mind. These thoughts speak to us through the printed page. the only effect of time has been to throw out of currency the bad products. Nothing in literature which is not good can live for long. Good books have always helped man in various spheres of life no wonder that the world keeps its books with great care. iii. To throw out of currency means.	A. Destroy B. Put out of use C. Extinguish D. Forget
37	Books are by far the most lasting product of human effort. Temples crumble into ruin, Pictures and statues decay, but books survive time dose not destroy the great thoughts which are as fresh today as when they first passed through their authors mind. These thoughts speak to us through the printed page. the only effect of time has been to throw out of currency the bad products. Nothing in literature which is not good can live for long.
