Sr	Questions	Answers Choice
1	Name the instrument which indicates speed at which a vehicle is moving?	A. Seismograph B. Scotograph C. Speedometer D. Spherometer
2	Which of the following is the instrument is used for enabling blind to write?	A. Seismograph B. Scotograph C. Speedmeter D. Spherometer
3	Which instrument is used to measure the intensity of earthquake?	A. Seismograph B. Scotograph C. Speedometer D. Spherometer
4	Which instrument is used to determining the amount of sugar in a solution?	A. Spectrometer B. Stethoscope C. Saccharimeter D. Sextant
5	The variation in the blood flow can be heard with an instrument called?	A. Spectrometer B. Stethoscope C. Saccharimeter D. Sextant
6	Which instrument is used for measuring the spectrum of light?	A. Spectrometer B. Stethoscope C. Saccharimeter D. Sextant
7	Which instrument is used to measure the refractive index of a substance?	A. Radiometer B. Ombrometer C. Refractometer D. Rain gauge
8	Which instrument is used for measuring the emission of radiant energy?	A. Radiometer B. Ombrometer C. Refractometer D. Rain gauge
9	Dynamo is a device used to transformation of mechanical energy into?	A. Electrical energy B. Heat energy C. Mechanical D. Sound energy
10	What is the measured with an ombrometer?	A. Rainfall B. Electrical C. Radiant energy D. Energy
