A. Anopheles B. House-fly C. Culex D. Aedes D. Aedes D. Aedes D. Nitrogen D. N	Sr	Questions	Answers Choice
2 The first psychotropic drug was: 3 The first psychotropic drug was 3 The first psychotropic drug was 5 The first psychotropic drug was 6 The first psychotropic drug was 7 The first psychotropic drug was 8 Dampen of part all the first psychotropic drug was 8 Part and Part Part Part Part Part Part Part Part	1	"Parkinson" is a disease of:	B. Heart C. Lungs
3 The first psychotropic drug was C. Prozacsbr> C. Prozacsbr> C. Prozacsbr> D. Impramine drp> 4 Dengue fever is spread by A. Aedes aegypi mosquito B. Common house files C. Anophilies mosquito D. Rodent like rats and squirrels A. Anopheles D. Rodent like rats and squirrels A. Anopheles C. Quex D. Aedes C. Culex D. Aedes D. Nitrogen D. Nitrogen D. Nitrogen D. Nitrogen D. Nitrogen D. Diodo protein D. None of these D. None of these D. None of these D. Red strips of sugarcane D. Rodent like rats and squirrels C. Culex D. Aedes C. Phosphorus D. Nitrogen D. Nitrogen D. Nitrogen D. None of these D. None of these D. None of these D. Red strips of sugarcane D. Red strips of sugarcane D. Red strips of sugarcane D. Red strips of sugarcane D. Red strips of sugarcane C. Kidneys and heart C. Kidneys and hungs Dr. Kidneys and hungs C. Kidney	2	The first psychotropic drug was:	B. Temazepam C. Prozac br>
B. Common house files C. Anophilies mosquito C. Anophilies mosquito D. Rodent like rats and squirrels A. Anopheles D. Rodent like rats and squirrels A. Anopheles D. Rodes B. House-fly E. C. Culex D. Aedes D. National Control of the following is a red blood cell disorder? B. Calcium D. Nitrogen D. Nitrogen D. Nitrogen D. B. Calcium D. Nitrogen D. Nitrogen D. Nitrogen D. B. Cholesterol D. B. Cholesterol D. B. Cholesterol D. Blood urea D. B. Cholesterol D. None of these D. Red strips of sugarcane D. Kidneys and lungs D. Kidneys <p< td=""><td>3</td><td>The first psychotropic drug was</td><td>B. Temazepam C. Prozac</td></p<>	3	The first psychotropic drug was	B. Temazepam C. Prozac
Search Service of Serv	4	Dengue fever is spread by	B. Common house files
6 Milk fever in vow is caused due to the deficiency of C. Phosphorus C. Phosphorus D. Nitrogen D. Nitrogen 	5	Yellow fever is transmitted by	B. House-fly C. Culex
7 heart attack is caused due to B. Cholesterol C. Blood urea D. blood protein A. Sickle cell anemia 	6	Milk fever in vow is caused due to the deficiency of	B. Calcium C. Phosphorus
8 Which of the following is a red blood cell disorder? 9 Which of her following is a bacteria disease? A. Early blight of potatoes B. Loose smut of wheat C. Red rot of sugarcane D. Red strips of sugarcane 	7	heart attack is caused due to	B. Cholesterol C. Blood urea br>
9 Which of her following is a bacteria disease? B. Loose smut of wheat C. Red rot of sugarcane D. Red strips of sugarcane A. Lungs and heart B. Spleen & amp; Liver C. Kidneys and lungs C. Kidneys and lungs 	8	Which of the following is a red blood cell disorder?	B. Leukemia C. Multiple myeloma
10 Which to organs/gland are affected by malaria? B. Spleen & amp; Liver < br> C. Kidneys and lungs < br>	9	Which of her following is a bacteria disease?	B. Loose smut of wheat C. Red rot of sugarcane
B. Fourtain bian spr	10	Which to organs/gland are affected by malaria?	B. Spleen & Dr>
