

MDCAT Chemistry Chapter 21 Environmental Chemistry Online Test

Sr	Questions	Answers Choice
1	Smaller unit of biosphere is:	A. specie B. ecosystem C. plankton D. troposphere
2	Elements in lithosphere exist generally as:	A. metals B. non-metals C. metalloids D. minerals
3	Eleven elements made part of earth mass:	A. 97.5% B. 98.5% C. 99.5% D. 100%
4	Lithosphere extends upto kilometer of earth crust in depth:	A. 10 km B. 100 km C. 1000 km D. 10000 km
5	Part of fresh water consumed in domestic purpose:	A. 1% B. 2% C. 69% D. 8%
6	Part of fresh water consumed in industry is:	A. 1% B. 2% C. 69% D. 23%
7	Agriculture consumes part of fresh water:	A. 1% B. 2% C. 69% D. 23%
8	Fresh water of total earth water is:	A. 1% B. 2% C. 3% D. 4%
9	Polar ice caps and glaciers consists total earth water:	A. 1% B. 2% C. 3% D. 4%
10	Ocean contains part earth's water:	A. 95% B. 96% C. 97% D. 98%
11	Hydrosphere covers the surface of earth:	A. 70.8% B. 71.8% C. 72.8% D. 73.8%
12	Heat balance of earth is maintained by sphere:	A. Hydrosphere B. atmospheres C. lithosphere D. biosphere
13	Nitrogen percentage in atmosphere is:	A. 76% B. 77% C. 78% D. 79%
14	Atmosphere consists of gasses:	A. N ₂ B. O ₂ C. Ar D. All
15	Region of earth capable of supporting life is called:	A. Atmosphere B. Hydrosphere C. Lithosphere D. All of these

16	Rigid rocky crust earth upto a depth of 100 km is called:	A. Atmosphere B. Hydrosphere C. Lithosphere D. All of these
17	Water bodies are included in:	A. Atmosphere B. Hydrosphere C. Lithosphere D. All of these
18	The layer of gases around the earth are called?	A. Atmosphere B. Hydrosphere C. Lithosphere D. All of these
19	What is component of environment?	A. Atmosphere B. Hydrosphere C. Lithosphere D. All of these
20	The scope of environmental chemistry is to study:	A. Source of chemicals B. Transportation of chemicals C. Transportation of toxic chemical D. All of these
